

# Reiki Intentions

Reiki is a distillation of the ancient wisdom and intuitive knowledge of the Eastern Seers and western followers. In the Vedic age Seers meditated and comprehended Nature and Her Energies. These energies appeared as forms in their visions which they formulated into energy formulae (mantras). Dr. Mikao Usui's quest for healing empowerment made him an instrument to channelize healing frequencies from the Universal Energy source. These frequencies are activated and channelized with Intentions. The Intentions narrated in this book are a result of real time encounters with Life Force Energies and their mystic yet dominating healing powers.
