

Creating a Haven of Peace: When You're Feeling Down, Finances Are Flat, and Tempers are Rising

SANCTUARY! SANCTUARY! SANCTUARY! yells Quasimodo (The Hunchback of Notre Dame) as he enters the cathedral to escape his tormentors. Sanctuary: A place of asylum and immunity. A place of peace and unconditional love. A place to escape from the everyday stressors of life. An attainable retreat accomplished through intentional living. Creating a Haven of Peace provides a formula for creating Sanctuary in your own home. An escape from the busyness and chaos surrounding our families today. Here are very attainable steps to creating the life you desire. How incorporating the five senses can turn your home into a Sanctuary of peace and love that supersedes the security you think money can provide. How relationship trumps all in building a foundation for peace. How being your own boss isn't all its cut out to be. The myths and realities of living the unpredictable entrepreneurial life. How The Ugly Year turned into success and unexpected life change and how you can change your own life story. When the business failed, the IRS was knocking at the door, the kids were hungry and we had borrowed a beat up car from a friend, I assumed this was the beginning of poverty and embarrassment. Instead, it turned out to be the wakeup call for our greatest and most successful adventure. Our family never had problems. We always had Opportunities for Solutions and we could get mighty creative with figuring out the solutions!
