

Of The Something More

Dear Citizens of Earth Earth is an occupied planet in league with the Legions of Doom--evil angelic forces in rebellion against God, creator of all there is... * Could a God of love really create us so that our lives have eternal meaning in the universe. * Why do good things happen to the bad and bad things happen to the good? * Is there a hidden agenda to destroy mankind? * Documented evidence that alien influence (ethereal beings) was involved in the 9/11 catastrophe. * Never before published data from the Old Testament, that shows an interesting correlation of dates from the ancient Jewish exile, the destruction of Jerusalem, the partial return and the sudden collapse of Babylon with modern dates. Three of these have been fulfilled--will the others come on schedule bringing the day of the end times, and the nuclear war of Armageddon? * Is heaven a possibility--what does it mean to be a Celestial citizen? Will there be 1000 years of peace on Earth--the utopia of mankind? * What are the Arbrahamic and Davidic covenants through Isaac? Will the world of Islam inherit the promises of Ishmael? Throughout the search for answers to these questions we find encouragement about who we are and Gods incredible plan for each of us.
