

## Helping Your Child Through Bereavement (Will our children be okay?)

Emotional bereavement affects a child as deeply as it does an adult and, while nothing can take away the pain of loss, there is a great deal that can be done to help children to understand and cope with the confusing thoughts and feelings they suddenly experience. This booklet addresses the many questions that arise for parents and children when someone close has died, and offers practical advice on how to deal with the stages of grief and how to help children avoid the long-term distress that can be caused by hidden fears and misconceptions.
