

The Working Classes of Upper-Silesia: A Historical Essay (Classic Reprint)

Excerpt from The Working Classes of Upper-Silesia: A Historical Essay
The World War has brought many questions of nationality to the fore: chief among these being the question of Upper Silesia. The inhabitants of this country have to make their choice: either Berlin or Warsaw. Whither will they turn? By far the greater majority of the population of Upper-Silesia are perfectly aware, that the closest possible union with the Polish Republic is entirely to their own interest. The present possessors of this prosperous country with its wealth of coal and iron, try their very utmost to keep this wonderful Upper-Silesia land for Prussia, without being very particular as to the means used for this purpose. The contest for this precious bit of country has begun in deadly earnest. The wealth of Upper-Silesia consists for the greater part of its numerous and rich coal-mines. The coal territory of Upper-Silesia occupies 1,800 K. m. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
