

Morpho Wilson thought her life was difficult enough. Her father is Pazuzu, the Mesopotamian demon of plague and the Southwest wind. As a teenager, Morpho struggles against her father, while trying to adjust to high school in a new neighborhood. The family is constantly moving in an attempt to elude Pazuzu's murderous ex-wife, a demoness known for killing children. Then something interesting happens. A socially-impaired classmate becomes so intrigued by Morpho that he pursues her, despite the mystery surrounding her family and the danger that accompanies it. But before their romance can grow, the demoness tracks Morpho down, and now only needs an ancient artifact called the Tablet of Destiny to complete the destruction of the world. The tablet confers on its owner the ability to control the fate of everything and everyone on earth. Once the tablet is discovered in the Middle East, the oldest and most powerful gods begin a battle for its possession, with the human population caught in the middle. Morpho, her family, and her new friend must decide, do they escape from the horrifying demoness or fight for their own destiny? How far will Pazuzu go to save his daughter from a hellish fate? Will his banishment from Heaven so many millennia ago end up being a curse...or a blessing?
